MAY ANNOUNCE DRAFT PLAN TODAY

Details of Drawing to Be Held at War Department Virtually Complete

MAY AMEND DRAFT LAW

Sentiment Apparently Growing in Congress in Favor of Changing Measure

SEVEN STATES TO REPORT

WASHINGTON, July 17.—All but seven of the states had reported completion of their local exemption machinery tonight, encouraging officials in their hope that drawing of lots to determine the order of liability under the selective conscription law may be held before the end of the week.

Plan Virtually Complete.

Altho no details have been revealed, it was learned tonight that the plan of the drawing to be held in Secretary Baker's office virtually has been completed, and that an amendment may be made tomorrow.

Sentiment apparently is growing in congress in favor of amending the conscription act so as to make aliens liable for service or otherwise to relieve the requirements placed under the present allotment upon communities with large foreign population.

The state from which reports of complete exemption arrangements were received during the day are Utah, Alabama, Ohio, and Virginia.

Board Must Inform Men.

As far as can be told now, every registrant will have to be informed not only of the serial number placed on his card by the local exemption board, but also of the exact number of registrants in his district. Otherwise he will be unable to know until he is ordered before the board what his order of liability is. If there are 1,500 registered men, every serial number above that will represent a blank in that district when it is drawn and the rotation numbers of the drawing will pass them over.

Thus if No. 1428 should be drawn first, No. 1569 second and No. 1247 third the order of liability in a 1500 district would be No. 1428 first and No. 1247 second. While officials of the provost marshal's office refused today to discuss charges of unfairness in allotment of quotas made yesterday in the senate, it was pointed out again that the revised population estimates of the census bureau upon which the allotment was made were based wholly on the actual showing at the registration. On the average 9-3-10 percent of the total population were within the age limit of the draft bill. In large commercial and industrial centers, however, the percentage ran far above that figure because of the influx of young men.

Officials believe that in the main this plan was fair, but they realize some inequalities may result because of the large alien population in some sections. All aliens of draft age we're required to register and their number figured in the allotment basis, but unless the law is changed they must be exempted from service. That will put an unequal burden on citizen registrants in the communities of large foreign population.

Two plans have been suggested for changing the law so as to eliminate this inequality—reapportionment of quotas with the alien registrants left out of consideration or amendment of the draft act so that aliens will not be exempt. Both suggestions have many supporters in congress.

Senator Chamberlain, chairman of the senate military committee, has drafted a measure to make all aliens, wherever possible under existing treaties, and exempting enemy aliens subject to draft. A bill introduced by Representative Rogers of Massachusetts would provide that the draft quotas be apportioned according to the population of "military eligibles" instead of according to total population. Thus excluding aliens from the totals upon which apportionments are made. There has been no indication either of these proposals will have the backing of the administration.

Regard Aliens as Exempt.

Aliens as a rule have been regarded as exempt from military service in countries where they reside and no government has been more insistent than that of the United States upon the exemption from service in European armies of Americans in Europe. Many officials are known to hold the conviction that to require aliens in the United States to serve would be clearly a violation of international law at least unless the state department secured permission from the foreign governments concerned. Department officials feel the discussion in congress, if it develops into action, may indefinitely postpone the raising of the national army. The suggestion therefore has been made to some of the senators interested that the present draft be allowed to proceed on the basis planned and that the question of corrections be threshed out between now and the time of the next draft.

ONE KILLED; TWO BADLY INJURED IN WRECK

PEORIA, Ill., July 17.—Sherman Slater, Blue Island, Ill., engineer of the Rock Island passenger train from Chicago, wrecked when it went thru an open switch into a cut of flat cars in the Rock Island yards here early this afternoon, was extricated from the debris two hours later with both feet cooked and crushed and otherwise badly injured. He is in a hospital with small hope of recovery. Harold Smith, a telegraph operator from Bureau, who was riding in the cab at the time, is also in the hospital badly scalded, and in a serious condition.

Charles Ehle, fireman of Chicago, was the only one killed. Two passengers and two negro waiters in the dining car were slightly injured. Engineer Slater died at the hospital tonight.

EXPECT REICHSTAG TO ADJOURN FRIDAY

New Chancellor Working Hard On Program Speech

Berlin Despatch Says Majority Plans to Present Peace Terms in Reichstag Tomorrow and Demand from Chancellor That He Accepts It Otherwise Co-operation is Impossible.

Amsterdam, July 17.—A despatch to the Frankfurter Zeitung from Berlin reports that Herr Wahnschaffe, chief of the imperial chancellery, has retired as is the case when chancellors resign.

Germany, the Catholic organ, says that General Von Stein, Prussian minister of war and state, resigned "owing to the attitude of Dr. Von Bethmann-Hollweg during the crisis."

Chancellor Michaelis is described in special despatches from Berlin as working night and day on his program speech and the selection of new material for the Prussian imperial administration.

Changes Completed.

The Lokal Anzeiger says the changes have been completed and the new chancellor will appear in the Reichstag accompanied by all his new colleagues.

The Tagesschau says Herr Michaelis is reticent on his policy. The Reichstag is expected to adjourn Friday until September, first voting the war credits almost unanimously.

A despatch from Berlin says the majority bloc plans to present peace terms in a resolution to the Reichstag Thursday and to demand from Minister Michaelis a statement that he accepts it in principle, otherwise co-operation is impossible. Meanwhile, the execution of this plan depends upon the extent to which the bloc holds together.

Appeal Count Von Roedern.

Amsterdam, July 17.—Count von Roedern, German finance minister replaces Dr. Karl Helfferich, secretary of the interior, according to the Berliner Tagesschau.

Selection Still Unsettled.

Copenhagen, July 17.—The selection of a successor to Foreign Secretary Zimmerman was still unsettled yesterday. Pressure was brought from two directions to block first, the proposed nomination of Count Brockdorff-Rantzau, the German minister at Copenhagen, and to substitute Admiral Von Rintz, minister to Norway or Count Von Bernstorff, former ambassador to Washington.

Says Von Bernstorff Gets Post.

Paris, July 17.—A Zurich despatch to the Petit Parisien says Count Von Bernstorff has been appointed German minister at Copenhagen in the place of Count Brockdorff-Rantzau.

TRADE COMMISSIONERS TOURS PACKING PLANT

CHICAGO, July 17.—Chicago's packing plants, the center of the Nation's meat supply came under the scrutiny of Joseph E. Davies, federal trade commissioner today when he began preliminary work in the commission's investigation of food prices and supply.

Mr. Davies toured the packing plants at the Union Stock yards in company with Louis F. Swift and Arthur Meeker.

Quarters for the clerical work of the commission were established in the federal building today.

WEST POINT DRILL MASTER AT CAMP

FORT SHERIDAN, July 17.—West Point drill tactics brought new snap to the maneuvers of the artillery contingent of the student officers and national guardsmen encamped here today.

Major Herman Kohler, one of the West Point drill masters, put the artillerymen thru their paces. He insisted on snap and silence and got it after a few trials.

More of the Illinois, Michigan and Wisconsin student officers were weeded out today. It is estimated that several hundred have left the camp within the past few days.

OPERATORS AGREE TO FURNISH COAL

WASHINGTON, July 17.—Coal operators of four eastern states at a conference here today assured government officials they would meet all the government's coal needs and that they would furnish amounts allotted to them by any agency the government might name. The question of prices was not considered, altho Secretary Daniels, in a speech appealing to their patriotism, declared the operators should come forward in the same spirit as shown by the men who don uniforms and go to France. The government's coal requirements for the next year were put at slightly more than five million tons.

GIVE SUFFRAGISTS TERMS IN WORKHOUSE

Sixteen are Sentenced to Serve Sixty Days

Women Refuse Offer of \$25 Fines and Are Turned Over to Workhouse Matron—Will Be Assigned to Sewing Room of Prison Today

Washington, July 17.—Sixteen woman suffragists, arrested while participating in the woman's party bastille day demonstration in front of the white house, were sentenced in police court today to serve sixty days in the District of Columbia workhouse for obstructing the sidewalks.

Refuse to Pay Fines

The women were given the alternative of paying \$25 fines, but they promptly refused the offer and were taken to a matron who say that each got a shower bath and exchanged her clothes for heavy one-piece prison dress. Tomorrow they will be assigned to the sewing room of the prison where they will work several hours daily.

Tonight the party's headquarters here was in a flurry of uncertainty over the question whether the women should be permitted to serve their sentences without protest or whether the cases should be appealed.

Altho no one at the headquarters would confirm it, there were indications that the course of the women's friends might be determined finally by the attitude of Dudley Field Malone, collector of customs at New York, who came here to testify for the women and later asked the court to be permitted to act as their counsel. The request was granted, but instead of taking any legal steps on behalf of the women, Mr. Malone went to the white house for a long conference with President Wilson.

Rumors that Malone Resigned

What happened at this conference was not revealed, but Mr. Malone came away visibly perturbed and there were many rumors that he had resigned his collectorship and would take actively the right of the suffragists who repeatedly have been in police court during recent weeks for their demonstrations at President Wilson's door step. These rumors Mr. Malone himself would neither deny nor affirm.

Tonight's sentences were the first of more than three days duration imposed on any of the suffragists since the police began interfering with their white house picketing.

Progress of Trial Turbulent

The progress of the trial was turbulent and the judge frequently was compelled to threaten spectators with ejection for applauding. After one defendant declared the proceedings were a farce, the bailiffs were called to establish order. The women frequently reiterated, however, that they were arrested at the instance of "some one in the administration," and the judge finally gave voice to his impatience and said any further declarations of that kind would be considered contempt of court.

PARDON BOARD GRANTS STAY OF NINETY DAYS

SPRINGFIELD, Ill., July 17.—James Marion Miller, an attorney of Chicago, and Loderay Miller, his sister, convicted of confidence game in Cook county and ordered to serve an indeterminate term in the penitentiary were granted a stay of ninety days by the pardon board today.

This will delay their commitment until the pardon board has had time to pass upon an application for pardon.

Miller and his sister were convicted of "feeding" Thomas Foulkes of Danbury, Iowa, of thousands of dollars while Foulkes was laboring under the impression that Miss Miller was to become his wife.

Former Governor Dunne appeared before the pardon board in behalf of the petitioners.

GIVE OFFICIAL FIGURES ON APPLICATIONS

CHICAGO, July 17.—Official figures for training in the second series of officers reserve camps in the central department of the army made public tonight showed 31,314 applications, of whom 6,622 were at once rejected and 24,692 certified for examination. From this latter number will be selected the 5,796 men for training in the various camps of the department which opens August 27.

Camp commanders will begin notifying the successful applicants on August 10 when to report. Of the applicants certified for examination, 5,407 are from Illinois, whose quota for training is 971, and 1,065 from Iowa, quota 355.

FINDS ALL ITALIANS HAVE LEFT FLAT ROCK

FLAT RIVER, Mo., July 17.—The Italian consul at St. Louis was escorted thru what had been the Italian quarter here today and found that everyone of the one hundred Italians who had lived here had fled when foreigners were driven out last week by the self-styled "free born" miners and their sympathizers. The consul said he frequently had been asked by the mine companies to send Italians to the lead belt but that never again would he recommend to an Italian to come to this district.

In a Pole who left here for St. Louis told of a man who had been beaten severely and then robbed of \$700 in cash which he had hidden in his shoes. The lead mines are running only at part capacity and unless the foreign laborers who have fled return or are replaced there will be serious curtailment in the output.

OPERATORS AGREE TO FURNISH COAL

WASHINGTON, July 17.—Coal operators of four eastern states at a conference here today assured government officials they would meet all the government's coal needs and that they would furnish amounts allotted to them by any agency the government might name. The question of prices was not considered, altho Secretary Daniels, in a speech appealing to their patriotism, declared the operators should come forward in the same spirit as shown by the men who don uniforms and go to France. The government's coal requirements for the next year were put at slightly more than five million tons.

PROMISE TO BLOCK BILL

Washington, July 17.—Plans of the leaders of both parties in congress for quick action on the administration's aviation bill providing a great program for striking at Germany thru the air, promised tonight to be blocked by a small group of senators, including LaFollette and Gronna, who are planning to re-open the question of conscription.

MAKE CHANGES IN BRITISH CABINET

Sir Edward Carson Gives Up Post as First Lord of The Admiralty

JOINS WAR CABINET

Sir Eric Geddes First Lord Churchill Succeeds Dr. Addison As Munitions Minister

MONTAGU SECRETARY

LONDON, July 17.—Sir Edward Carson has relinquished his post as first lord of the admiralty and joined the war cabinet without portfolio, according to an official announcement of new ministerial appointments issued this evening. Sir Edward will be succeeded by Sir Eric Campbell Geddes who has been director general of munitions supply.

Churchill Succeeds Addison

Winston Spencer Churchill succeeds Dr. Christopher Addison as minister of munitions, Dr. Addison becoming a minister without portfolio in charge of reconstruction. Edwin Samuel Montagu, a former cabinet minister, is made secretary for India.

One of the most acceptable appointments, as far as the general public is concerned, is that of Mr. Montagu. He is one of the very few members of the Asquith administration, in which he was minister of munitions, to join the Lloyd George ministry. Mr. Montagu has had considerable experience in the affairs of India, having once held the post of under secretary for India. Late he has been in charge of a large committee exploring the ground for reconstruction after the war and before the recent resignation of J. Austen Chamberlain as secretary for India was announced it was generally supposed that Mr. Montagu eventually would become minister of reconstruction.

The necessity for finding a new secretary for India, however, caused a modification in the plans of Dr. Addison who had been slated for the projected ministry of health, now becomes head of this reconstructive committee which has been made into a kind of ministerial department.

Contains Two Surprises

The new cabinet appointments arising out of the resignation of Mr. Chamberlain, as secretary for India, and Andrew Bonar Law's desire to be relieved of his duties as a member of the small war cabinet which he found incompatible with his heavy responsibilities, first, as chancellor of the exchequer, and, second, as leader of the house of commons, contained two complete surprises—the appointment of Sir Eric Geddes as head of the admiralty and Winston Spencer Churchill as minister of munitions.

Mr. Lloyd-George met with such strong opposition that the project was dropped. Mr. Churchill's appointment, however, that he would succeed Lord Cowdray as chairman of the air board but the idea, evidently then contemplated by Premier

Justice Hendrick of the New York Supreme Court Grants Habeas Corpus Write Setting Harry Austin Free.

New York, July 17.—A citizen's right to criticize the government was upheld today by Justice Peter J. Hendrick of the state supreme court in granting a writ of habeas corpus setting free Harry Austin, sentenced to thirty days imprisonment by a magistrate for disorderly conduct after he had distributed circles containing extracts from the United States constitution and the Declaration of Independence, together with the question, "Does our government live up to these principles?"

Justice Hendrick said a misconception of the distinction between the government's control of exports, which went into effect Sunday morning, and a criticism of the law had arisen. He asserted every one in the country had the right to criticize the government and the laws that exist.

Reminded by an assistant district attorney that the defendant had printed in larger letters sentences from the Declaration of Independence, he said that it is the right of the people to abolish oppressive governments, Justice Hendrick said:

"Why, that's in the Declaration of Independence. We all believe that and it is what the United States of America is urging upon Germany at the present time. It is what the people have done in Russia."

Appeal will be taken from Justice Hendrick's decision, it was said.

HOLD WILLIAMS WITHOUT BAIL

Peoria, Ill., July 17.—A coroner's jury this afternoon recommended that Charles Williams be held without bail for the murder of his wife, May Williams and that his brother Ben be held also without bail as an accessory. Several witnesses residing in the rooming house where the tragedy occurred testified that the trio had been drunk and quarreling all day Sunday. They came to Peoria a week ago from Quincy.

PERMIT GOVERNOR TO WEAR PALM BEACH

Oklahoma City, Okla., July 17.—Gov. R. L. Williams of Oklahoma will be allowed to meet the Belgian mission on its visit to Tulsa Saturday in his six dollar palm beach suit, as he terms it. Word that the Tulsa reception committee had decided to dispense insofar as the governor was concerned, with the formal dress was received by the executive today. Previously he had announced he would don no rock coat or high hat in 100 degree temperature but would wear his summer clothes, if he were to be present.

LOWDEN'S IDEA OF SERVICE.

After Governor Frank O. Lowden who was in Chicago the other day, had inspected the army training camp at Ft. Sheridan he made a statement which complimented the men and rapped citizens who in these days of stress are putting business profit first and making patriotism secondary. The governor said: "I wish that every man whose first thought is to make a business profit by this war, and every politician who strives to gain political advantage by this war might visit Fort Sheridan and look upon these men. They would then know that there are great ideals in America of which they have never yet dreamed."

A CHANCE FOR SERVICE

Why doesn't some patriotic citizen of Jacksonville take the initiative in organizing a company of the Illinois national guard? Now that the state guard has been federalized Jacksonville is without a company in the state service. A new regiment has already been formed and will be mobilized at Springfield this week. The companies in this regiment are made up for the most part of men from forty years upward. Many of them are veterans of the Spanish war. They have the feeling that they are doing a patriotic work in becoming guard members now and thus making themselves available for any military duty which may arise within the boundaries of the state.

The organization of the new regiments of the national guard is proceeding along lines suggested by the state council of defense and Gov. Lowden. They will give the state any needed protection and the men who are joining are measuring up well to duty. Under the plan of organization those who enlist can not be used for federal service in the present war.

USELESS ADVICE

There is lots of printed matter coming from the government office, it is wasted, advising people to use corn products instead of meat. Very frequently we read that it is unfortunate that people have not learned more of the uses

of corn flour in cooking and advocates of a campaign of education along this line are many.

These enthusiasts seem to have overlooked the fact that corn is proportionately higher than wheat and that to teach the people the use of corn products as substitutes for wheat at present is useless. When corn has sold at 50¢ a bushel normally the price of wheat has been from 90¢ to \$1.10. Now corn is selling at \$2 a bushel and wheat is not very much higher. The people who are looking for something cheap to eat will have to cut out both corn and wheat products.

ONE MUST BE "BOSS" SHIP BUILDER

The Goethals-Denman controversy about the ship building program again looms up, as Mr. Denman has declined to O. K. the Goethals program of commandeering merchant ships under construction here and for the construction of two government steel ship plants until he has more detailed information at hand. Two or three weeks ago announcements were made of a kind to indicate that a basis of understanding had been reached between the two men and that the ship building program would proceed without further friction. But the truce—or whatever it was—declared at that time has already been broken. Again it seems certain that President Wilson will have to make a finding and make one or the other of these men supreme. Certainly the building of ships will not progress with any satisfactory rapidity so long as there is friction and a difference of opinion as to whose authority is final.

UNCERTAINTY BAD FOR BUSINESS

The people are growing very weary of the endless discussion of the food control bill with which Congress has been wrestling for the past five or six weeks.

There is a general belief that various amendments have been made to the bill for the very purpose of complicating it in such a manner as to insure its defeat.

The majority of people have the feeling that the bill should be limited to food and fuel as originally planned.

They see the need of controlling steel, copper, iron, cotton and other commodities but believe that control should be handled in some other way. To include them all in one bill and to place the entire matter in the hands of the president gives the chief executive too stupendous a task and clothes him with more responsibility than even he wishes to take at this time.

There is no question but that the continued discussion of the subject in Congress and the introduction of amendments and changes, is disturbing to business in many lines.

In all probability some sort of control is coming and the sooner the public knows just what the bill is, the better it will be for business and for people of all classes. As has been said so many times before, there is nothing worse for business than uncertainty.

AVOIDING OBLIGATIONS

Springfield is in the midst of agitation for authorizing a higher city tax rate. The legislature passed a law which makes it possible to submit this question to cities and if a majority of the people voting are favorable the city tax rate may be increased from 1.2 to 2. The Springfield commissioners and the papers there are laying stress upon the fact that it is the common experience of cities that the revenues have not kept pace with expenditures. The people have grown to expect more and more in service from their municipalities but have not increased the available funds for the work. So in cities, whether wet or dry, the increased cost of operation has brought debt.

In an editorial advocating the proposed increase the Springfield Journal uses a sentence which is especially applicable to Jacksonville just now. "There is no method by which Springfield can avoid paying its obligations." That is just the situation in which Jacksonville is found today. There is an improvement bond deficit of \$23,000 which must be paid some time and in some manner. It is a question of issuing bonds and spreading their payment over a number of years, or of letting the city drift along owing this amount and have suits brought by those who invested in the bonds. They can secure judgment and collection can be enforced. Meanwhile the process will be expensive and Jacksonville advertised as a city unwilling to pay its honest debts. It would be well to remember that "there is no method by which Jacksonville can avoid paying its obligations."

SHOULD KEEP MR. ROOT

President Wilson was fortunate in securing the consent of Elihu Root to serve as the head of the American commission to Russia. Mr. Root's pre-eminent position as an authority on international relations and the world wide reputation he enjoys as a wise statesman fitted him especially for the giant task that he assumed. If we may judge by the reports of conditions in Russia now by contrast with those some weeks ago, the work of Mr. Root and his associates has been most effective. No doubt this commission has been of very large service in establishing the affairs of the New Russian government and helping the leaders there to bring order out of chaos. It is understood that Mr. Root is soon to return and give to President Wilson the first hand information of conditions as they exist abroad.

The report that the American embassy is soon to return has brought the expressed wish from many sources that the president will find some way of keeping Mr. Root officially connected with government affairs. Certainly President Wilson in these days needs the advice of those Americans most skilled in international affairs. Mr. Root stands at the very head of this list, and while the president has not seen fit to have a coalition cabinet during the days of the war, no doubt some other plan can be worked out which will give the country the benefit of Mr. Root's services.

VETERAN WABASH CONDUCTOR TO WED

Decatur papers announce the coming marriage of Fred G. Schmitt to Mrs. Florence Bennett of Clayton the ceremony to take place in September. Mr. Schmitt is known to a great many Jacksonville people as he has been a passenger conductor on the Wabash for thirty seven years and for the greater part of that time has had a run thru this city. Now Mr. Schmitt is to be transferred to Clayton, Quincy and Hannibal run, so that his headquarters will be at Clayton. The Decatur paper refers to Mr. Schmitt as one of the best known railroad men on the Decatur, Bluff's division of the Wabash.

KAISERISM.

If any additional proof is required clearly and decisively to establish the fact that the Kaiser has planned for more than nineteen years to invade America and destroy our republican form of government, it may be found in the several books written by the members of the German general staff, addressed to the Kaiser at his request, describing how America can best be invaded and subjugated. These books are available to anyone who wishes to obtain them from the publishers.

In 1898, before Manila, the German rear admiral, Von Goetzen, a close friend of the Kaiser, said to the American Admiral Dewey:

The next meeting of the society will be held at the home of Mrs. A. J. Ogram, West Lafayette avenue, Tuesday, Aug. 21. Mesdames Graham, LeRue and McMurphy

WAR NEWS SUMMARIZED

There has been no relaxation in the intensity of the fighting between the French and the Germans on various sectors of the southern line in France from Soissons eastward thru the Champagne and into the district northeast of Verdun centering about the famous Hill 304.

Victories are recorded for both sides—for the Germans along the Laon-Soissons road in the penetration and destruction of French trenches and in Champagne north of Mont Teton, where the forces of the crown prince previously had been repulsed with heavy casualties and for the French in the Verdun sector where General Petain's forces in a mighty effort took enemy lines on a front of a mile and a half to depth of about two thirds of a mile.

The success of the Germans north of Mont Teton was obtained thru persistent counter-attacks on positions they lost last Saturday in which their losses had been extremely heavy. While the German war office asserts that all the old German positions were recaptured the Paris official communication says that the troops of the crown prince only regained a foothold at certain points in the trench elements.

Artillery duels and small operations carried out by raiding parties continue on the line where the British are facing the Germans. Intensive air fighting is still in progress in this region in the latest of which six German machines were driven down and three others forced down out of control by British airmen whose machines all returned from their forays.

The Russians in East Galicia have been forced for strategic reasons to evacuate the town of Kalusz and take positions on the southern side of the Lomnica river. The important crossing of the Lomnica was made secure by the troops of General Brasloff after they made their retreat. Previous to retiring the Germans had carried out persistent attacks on Kalusz but the Russians had repulsed all of them. Serious fighting has taken place in this immediate region for the village of Novica, the Austro-Germans capturing it, but later being driven out on the arrival of Russian reserves.

Heavy artillery fighting continues along the northern front around Riga, Dvinsk and Smorgon, but as yet the extent of the operations has not been revealed in any of the official communications.

In Roumania along the Danube Russian scouts captured the village of Dunavec and most of its defenders, but later abandoned the positions. In none of the other theaters has there been a battle of any great moment.

ANNOUNCES ECONOMY IN RAIL OPERATION

Roads Eliminate Passenger Trains Representing 16,267,028 Miles of Train Service a Year.

New York, July 17.—Passenger trains representing 16,267,028 miles of train service a year have been eliminated by the railroads of the country to facilitate transportation of freight for successful prosecution of the war, Fairfax Harrison, chairman of the railroad's war board announced tonight. This was done, Mr. Harrison pointed out, to save man power, fuel and motive power to be applied to the transportation of necessities. Cutting off this volume of passenger service he asserted, will make available for other purposes over 1,120,000 tons of coal.

The railroad systems in the eastern department, the statement added, "have cut out 8,598,696 miles of passenger train service thus saving 716,113 tons of coal per year. "Roads in New England have arranged to eliminate 4,847,32 passenger train miles with a saving of 256,724 tons of coal.

"The Pere Marquette and the Wabash, the only roads reporting as yet from the central department have eliminated together 846,600 miles of service and plan to save 94,555 tons of coal.

"The Southern Railway has cut out 1,900,000 passenger train miles and will save 97,282 tons of coal."

AFFIRM LOYALTY OF CHURCH IN AMERICA

OMAHA, Neb., July 17.—Twenty seven pastors and heads of the nine branches of the Lutheran church of America officially urged the church of the Nebraska Defense council's charges of disloyalty at a meeting held here today. Resolutions were adopted affirming the loyalty of the church in America and declaring that the Nebraska council of defense "because of cases of indiscreet conduct of speech upon the part of individuals, has particularized our church for the mark of 'odium' when undoubtedly among all creeds there have been those likewise guilty and yet these creeds have passed unnoticed."

ONE BOY KILLED IN MINE WARFARE

CHICAGO, July 17.—Trench warfare has claimed its first victim in Chicago. It was in play that Thomas Deutsch, eleven years ago, and his companions built a series of tunnels on a vacant lot here "just like they have in France." Today the mimic warfare was continued and a portion of the trenches collapsed, burying several of the boys. All extricated themselves except young Deutsch whose body was recovered twenty minutes later by rescuers.

WEDDING IN NAVAL CIRCLES.

Newport, R. I., July 17.—A brilliant array of naval officers in full dress uniform filled Kay Chapel today for the wedding of Miss Margaret Fechtele, daughter of Rear Admiral Augustus F. Fechtele, U. S. N., and Mrs. Fechtele, and Lieutenant Commander Herbert E. Kays, U. S. N. The bride was attended by her sister, Miss Elizabeth Fechtele, as maid of honor, while Lieut Harlow T. Kays, U. S. N., acted as best man. The wedding ceremony was followed by an informal reception at the home of the bride's parents.

PROTEST AGAINST PROPOSED WAR TAX

Chicago, July 17.—Members of the mid-Western Theatrical Managers' association in annual session here today protested against the proposed war tax on theatrical industries. Officers elected were Samuel Carlton, Frankfurt, Ind., president; L. C. Zellen, Des Moines, secretary-treasurer. Des Moines was named as the next meeting place.

WILL INVESTIGATE COMPLAINT

Chicago, July 17.—Directors of the Board of Trade here will investigate a complaint preferred by President Joseph P. Griffin against A. V. Kinsler of Omaha and J. K. Riordan a local trader who are accused of circulating reports derogatory to the Board of Trade association. Dissatisfaction with the recent ruling of the board of directors in fixing maximum prices for corn is assigned as the cause of the trouble.

FORMING HOME GUARD UNITS.

New York, July 17.—Although the New York National Guard was wiped out yesterday when about 39,000 state soldiers took the federal oath, guardsmen who were discharged because of family ties were hard at work today preparing for the organization of new guard units for home defense.

EXONERATE BAKER

Chicago, July 17.—J. Franklin Baker, third baseman of the New York Americans was exonerated of alleged tampering charges by President Johnson of the American League tonight.

GERMANY HOPES FOR AMICABLE SETTLEMENT

BERLIN, July 17, via London. Germany hopes that the affair of the torpedoing of the Argentinian steamer *Toro*, will be settled amicably, according to a semi-official note. The statement denies that relations have been broken off, the government saying that it had not yet replied to the Argentine note.

Would Be of Universal Importance. Buenos Aires, July 17.—Lively expectation continues here on the ultimate outcome of the controversy which has arisen between Argentina and Germany respecting the sinking of Argentine steamers. An official German despatch received today announcing that the question will be settled amicably caused great amazement and was received with skepticism for the Argentine government is determined not to modify the terms of its note demanding satisfaction and the promise of Germany not to sink Argentine vessels in the future would constitute a victory of universal importance, as Germany would thus recognize the rights of neutrals.

The newspapers express the opinion that the rupture of relations between Argentina and Germany would involve that of Spain and Germany.

CONVICT MAN FOR MARRYING WITHIN YEAR

CHICAGO, July 17.—Morris W. Babb was convicted by a jury today under the statute which prohibits remarriage within a year from the time a divorce is obtained, the first conviction in Illinois since the law was enacted. Babb, an actor, married Grace Rother, his vaudeville partner for twenty years, on her death bed. He admitted he was technically guilty. Judge David M. Brothers in the criminal court placed Babb on probation for ninety days. The statute provides a sentence of from one to three years in the penitentiary.

MAY POST PAPERS FOR SOLDIERS

Washington, July 17.—Magazines and newspapers bearing one cent stamp hereafter may be posted unwrapped and unaddressed by persons other than publishers, and will be forwarded by postal authorities to American soldiers and sailors in Europe.

CONVENTION CLOSES.

Fort Wayne, Ind., July 17.—The annual convention of the Walther League, an international organization, came to a close here today. Buffalo, New York, was selected as the meeting place for next year.

PLEDGE LOYALTY TO WILSON.

Atlantic City, N. J., July 17.—A pledge of loyalty and of service was made to President Wilson by the Ladies Catholic Benevolent association in quadriennial convention here today on behalf of its 163,000 members.

YEAR A DISASTROUS ONE IN BASEBALL CIRCLES

Numerous Minor Leagues Forced To Succumb After Short Career. Most Notable of Organizations To Go Under is Three-I League.

Chicago, Ill., July 17.—It may be the war or it may have been the weather, but whatever the reason, the year 1917 is destined to be set down in the annals of baseball as the most disastrous season for the minor leagues in the entire history of the national pastime. A number of the promoters and magnates, after figuring up the profits and losses at the close of last season failed to see any bright light ahead when the time came around to resume operations last spring. Consequently the number of leagues that started this season was considerably less than in previous years. And the number that will be enabled to finish out the season will be still smaller. Already more than half a dozen of the minors have been forced to throw up the sponge. Several of the southern organizations were the first to succumb, among them the Georgia-Alabama league, the North Carolina league, the Virginia league, the Dixie league and, more recently, the South Atlantic league, with a circuit comprising a number of the leading cities of the southeast. The Northern league, with a circuit of four clubs, was forced to close after a short career. The most notable of the organizations to go under, however, has been the Three-I league, one of the oldest minor organizations in the country.

If the war continues to last throughout the summer, it is likely that the number of minor leagues will be still smaller. Already more than half a dozen of the minors have been forced to throw up the sponge. The most notable of the organizations to go under, however, has been the Three-I league, one of the oldest minor organizations in the country.

If the war continues to last throughout the summer, it is likely that the number of minor leagues will be still smaller. Already more than half a dozen of the minors have been forced to throw up the sponge. Several of the southern organizations were the first to succumb, among them the Georgia-Alabama league, the North Carolina league, the Virginia league, the Dixie league and, more recently, the South Atlantic league, with a circuit comprising a number of the leading cities of the southeast. The

DRIVE FOR RED CROSS MEMBERS IN WHITE HALL

Will Make Effort to Enroll Thousands and Names—Public Meeting Planned for Sunday Afternoon—Vernon L. Davis Funeral Monday—Other News Notes

White Hall, July 17.—The issuance of daily forecast cards has been discontinued from White Hall, the work having been taken up in the office of the Beardstown Enterprise. This service is purely voluntary and has been performed at White Hall for seventeen years, being discontinued since R. B. Pearce retired as editor of the White Hall Republican, he retaining the local government instruments for maintaining daily readings for use in connection with his work as a newspaper correspondent. On completing the arrangement for having the forecasts issued from Beardstown, Mr. Pearce received the following word of praise from Section Director Root of Springfield: "I wish to take this opportunity of expressing my thanks and appreciation for the long and faithful services you rendered as card distributor. You may tell your people that they will soon have service again."

White Hall is making a great drive in the interest of the local Red Cross chapter with the view of securing one thousand members. Temporary headquarters have been established in the domestic science room of the public school, and the organization has been perfected and an army of workers assigned to the various departments. To further accentuate the issue locally, a public meeting will be held in Whiteside Park next Sunday afternoon at 2:30 to be addressed by H. H. Baneroff of Jacksonville, and also by Miss Jeanette Davenport of Seattle, Wash. A Red Cross nurse who is the guest of her aunt, Mrs. F. M. Winters. The singing will be by a men's chorus of fifty voices under the leadership of Miss Emma Duncan.

GOVERNMENT INVESTIGATES DRAINAGE

The federal government has be-

gun an investigation of drainage matters with the view of compiling information that will be an aid in the proper methods and plans for reclamation enterprises. The work along the Illinois river has for the past several years been looked upon as a model from an engineering standpoint with reference to successfully leveeing against the river waters. The government naturally sought to get in touch with the individual who promoted the first successful reclamation enterprise along the Illinois river, and for this purpose Louis Lowenstein had as his guest in White Hall last week Lewis A. Jones, C. E., senior civil engineer of the department of agriculture at Washington. Mr. Lowenstein as the father of Illinois river reclamation on a successful scale had his honor further emphasized by this visit of Mr. Scott, who left with information of greater value than he possessed when he came to White Hall, and he likened Mr. Lowenstein as the pioneer of modern reclamation. Mr. Lowenstein is the secretary of the Hillview Drainage and Levee District, located along the Illinois river northwest of White Hall, and while he shows the evidence of trial and tribulation in achieving his well known reputation as a drainage man, he finds great satisfaction in viewing the mighty achievements of reclamation along the Illinois river in Greene county alone, where some 35,000 acres of hitherto practically worthless land have been brought to a condition of productivity and value that has made the Illinois river valley be referred to as "The Nile of America."

RECEIVES LETTER FROM RUSSIA

For the first time since fleeing from Russia about a year prior to the outbreak of the European war, having served a term in the war with Japan, M. Cohen is in receipt of a complete letter from his family in Russia. Until the overthrow of Russian autocracy all his mail has been censored to such an extent as to convey no information as to conditions in that country. One letter had been so thoroughly censored that there was nothing left but the date line and the signature. The latest communication is dated from Mogilev, located in northwestern Russia, April 24th, and was received in White Hall on July 15th. It is written in the Russian language and interpreted it says that the members of the family are all right, but that living is very high. They are compelled to line up in the bread line for the purchase of bread, for which they pay 22¢ per pound. Bread is not sold except in the bread line. Shoes are \$9.00 per pair in U. S. money, and sugar is 26¢ per pound, the figures being computed in U. S. money. The letter speaks of the pride of the Russian people on their birth of freedom, adding that it all seems like a dream, as they are privileged to say and do things never before permitted. This has aroused the fighting spirit as never before; they now know what they are fighting for, something hitherto unknown. "Hurrah for Free Russia, Hurrah for Democratic Republic, the old chains have been loosened," are some of the phrases emphasized. April 18th is now celebrated in Russia much as Americans celebrate July 4th. The old holiday of May 1st was observed quietly in principally government circles, and this has entirely given place to the new national holiday with the establishment of the Republic.

A garage and other improvements are being added to the Presbyterian manse, and while the work proceeds Mrs. A. P. Ewart and children are with her parents in Jacksonville while Pastor Ewart is on the circuit of chautauquas as platform manager, being at Mattoon this week. He is president of the White Hall Chautauqua Association.

Mrs. Ella Burgess, of St. Louis, is spending a few days with old home folks in White Hall. She was formerly Miss Ella Young.

Amusement circles contemplate with pleasure an early return visit of Murphy's Comedians as a Red Cross benefit. This company makes an annual visit to White Hall. An Uncle Tom's Cabin show is now billed. A street medicine vendor held forth all last week, offering their popular remedies for sore feet, and active work has begun on the two-acre public swimming pool on the chautauqua grounds.

DONATES FOR PUBLIC AUCTION

Gregory Farm is the first to offer a donation for the public auction of pure-bred stock in connection with a Red Cross benefit. The Gregory Farm donation is a Berkshire pig, and Mrs. Oscar Davis, being a brother of F. Stuart Davis of following an illness of only a few days, Vernon L. Davis died Saturday evening at 8:45 o'clock at his home on West Franklin street, and funeral services were held at 2:30 p. m. Monday at the home, the burial being in the White Hall cemetery. Mr. Davis was a son of Mr. F. Stuart Davis, the junior member of the firm of Nevius & Davis of White Hall, a mercantile firm.

Oats cutting began in this locality last week, and is in full blast this week. The yield is heavy, and the acreage is probably the largest ever planted in this section.

SOME FAMOUS AMERICAN FLAGS

Original "Star Spangled Banner" and Other Emblems of Renown Have Been Preserved.

Ever since the first flag was made in Philadelphia, in 1777, flags of renown have been floated on the breeze. Some of these have happily been preserved to awaken feelings of patriotism in the hearts of all who view them.

Chief of all the distinguished historic flags of our country now in existence is probably that revered and tattered flag which is treasured by the State of Maryland. This flag's record is authentic. It was carried as the regimental flag of the Third Maryland Regiment under Colonel John E. Howard at the battle of Cowpens, South Carolina, in January, 1778, by William Bachelor, color bearer, who, when wounded, was sent to his home in Baltimore, taking the flag with him, which he had carried, it is stated, at the battles on Long Island and Harlem Heights, and the several subsequent engagements in which the Maryland regiments took part in New York state.

FLAG BEQUEATHED TO SOCIETY

The flag was treasured by the family after the death of Bachelor and carried by his son, William, of the Twenty-seventh Regiment, Maryland militia, at the battle of North Point. Later the younger bachelor carried the flag in parades and functions of the Old Defenders' association, to which society the flag was bequeathed and which presented it to the state of Maryland at Annapolis on Oct. 19, 1907.

Another venerable flag claims the honor of being the oldest American flag in existence. This flag, it is stated, was carried by John Paul Jones on the Bonhomme Richard in the famous battle with the British frigate Serapis, on Sept. 3, 1779.

Hanging from the walls of the National Museum is the most distinguished of our distinguished flags—the Star Spangled Banner which floated over Fort McHenry, Maryland, during the British attack in September, 1814, and on seeing which during the battle Francis Scott Key (head on one of the British ships) wrote the famous song of that name. This flag was made by Mrs. Mary Pickersgill and her assistants, at what is known as the Baltimore Flag House, and measures 26 by 36 feet.

PRESENTED TO NATIONAL MUSEUM.

In the battle one of the stars was shot away by the British. The banner was preserved by Major George Armstrong, the valiant commander of Fort McHenry, and after his death by his daughter, Mrs. Eben Appleton, who presented it to the National Museum with the condition that the flag should never be removed for exhibition elsewhere.

The youngest among distinguished flags is that which was made in the old Flag House, Philadelphia, in 1915. Each of the stars in this notable flag was supplied by the governor of one of the states of the Union. The flag was unfurled at the official opening of the Panama Canal, in 1915. It was released by President Woodrow Wilson, who pressed an electric button sending it to the breeze. At the same time "The Star Spangled Banner" was sung in almost every town and city of the United States, sending a thrill of patriotic impulse over the nation.—J. A. Stewart in the Living Church.

DECLARE FARMERS MUST DEMAND FAIR PRICES

Farm Papers Suggest \$2.00 Wheat and \$1.50 Potatoes Net to the Farmer.

Orange Judd Farmer in This week's issue will have the following to suggest about prices for farm products:

Already garden truck is almost a drug on the market in certain sections. Some growers have complained that strawberries did not pay for picking. Elsewhere it is reported that the peach crop is so large and the distribution of this perishable fruit so imperfect, that growers may not be recouped the cost of production. The market for wheat is unsettled and hesitant, and the trade abnormally restricted, as congress dawdles over the food bill.

The government has taken over entire control of the exportation of grain. Administrator Hoover continues to proclaim that food prices will fall still further. Today's prospect is that corn and potatoes may make the largest yield ever gathered, with other crops in proportion. However, it is yet a long time until harvest, and present prospects may be much curtailed.

While the farmer may have to face a period of falling prices for what he has to sell, present indications are for advancing prices for what he has to buy. The probability of such a situation, and the dangers involved in the readjustment it implies, have been emphasized repeatedly by this periodical. One hopeful feature is that the railroad's request for a flat increase of 15 percent in freight rates has been denied, though they were granted some increase and may reopen their case in October.

Another venerable flag claims the honor of being the oldest American flag in existence. This flag, it is stated, was carried by John Paul Jones on the Bonhomme Richard in the famous battle with the British frigate Serapis, on Sept. 3, 1779.

Hanging from the walls of the National Museum is the most distinguished of our distinguished flags—the Star Spangled Banner which floated over Fort McHenry, Maryland, during the British attack in September, 1814, and on seeing which during the battle Francis Scott Key (head on one of the British ships) wrote the famous song of that name. This flag was made by Mrs. Mary Pickersgill and her assistants, at what is known as the Baltimore Flag House, and measures 26 by 36 feet.

In view of all these contingencies it is only fair as well as legal for farmers to organize so as themselves to handle the distribution and marketing of their crops in a manner that will net a fair return. Only in this way may our western farmers do their part to obtain such minimum prices net at the farm as:

Wheat \$2 per bushel, corn \$1.50 per bushel, oats 65 cents per bushel, beef cattle \$12 to \$15 per 100 pounds live weight, hogs \$15 to \$17 per 100 pounds live weight, sheep \$10 to \$12 per 100 pounds live weight, potatoes \$1.50 per bushel; hay, apples and other crops on a similar basis of price. Milk 6 to 8 cents per quart net at the farm; butter and cheese on a corresponding basis.

The success with which organized dairymen have won reasonable advance in the price of milk this summer as well as last winter is an example of the kind of work that must be done by producers everywhere, if they are to insure anything like a fair return for their labor. Of course such organization must be conducted strictly within the law. Nor is there any desire among farmers to discommod the government or the public, but their self-preservation imperatively obliges farmers to insist upon living prices. They simply cannot face a falling market for what they have to sell, and a rising market for what they have to buy. Including higher wages for less competent help.

Orange Judd Farmer respectfully suggests to the President, the Congress and the food administrator that the farmer's interest be given adequate consideration in every readjustment required by war conditions.

WELL KNOWN DEAF LAWYER DIES

Alva Jeffords Passes Away at Ili-

nois School for Deaf.

Alva Jeffords, a graduate of the Illinois School for the Deaf, and a graduate of the Gallaudet University of Washington, D. C., died recently at his home in Iliinois, Ill., where he has practiced law for a period of years. Perhaps Mr. Jeffords was the only deaf mate who has entered into the legal profession, and his death will be keenly felt by the deaf all over the country. He had been extremely successful in his chosen profession, and had spent his life in trying to better the people in the country that are afflicted as was he. At the time of his death he was walking on a railroad track, and was struck by a freight train. He had been to the office of Rev. P. J. Hasenstab, president of the State Association of the Deaf, consulting with him on matters concerning the association. No doubt he was reviewing this conversation when the train struck him.

MANY SAFEGUARDS FOR MEN IN MARINE CORPS

L. O. Berryman Whose Son Enlisted, Receives Letter Indicating Government's Interest in Character and Development of Those in Service.

Much has been said of the efforts of the government to protect the morale of the young men who enlist for service in the army and navy. Indications of the activity of the government in this work are found in the rules prohibiting saloons or resorts of any kind within five miles, and in some instances ten miles, of any army encampment. The matter is brought to personal notice in a still more forceful way in letters which are being sent to the parents or near relatives of men who enlist in the marine corps. Such a letter was recently received by L. O. Berryman, whose son, William Berryman, enlisted with the marine corps in St. Louis and has now been transferred to Ft. Royal, S. C. The letter, which follows, is of a kind to carry with it much of comfort and reassurance to the relatives of enlisted men. It is dated at St. Louis on the stationery of United States Marine Corps.

Dear Sir:

Your name has been given as the next of kin, or the one to be addressed in any important matter, by the person named on the enclosed card, who has just been accepted for enlistment in the United States Marine Corps at this recruiting station and transferred to the Marine Barracks, Fort Royal, S. C., where he will probably remain under instruction for about three months and then be transferred for regular duty elsewhere.

Because of your interest in this young man, it is taken for granted that you will be glad to learn something about the Marine Corps and the conditions under which he will enter the service of the United States.

Helps To Manliness.

The Marine Corps tries to make men of those who enlist in its ranks, looks very carefully after their health and, so far as practicable, their habits; they are encouraged and given every opportunity to develop physically; the nature of their duties teaches them self-control and self-reliance, to act quickly and intelligently in emergencies; and if promoted they become leaders of men. A young man who enters the Marine Corps can find good associates if he wants to—intelligent, capable and often well-educated men. They come to us from farms, factories, trades, business offices, schools and universities, and even from special and scientific professions.

Our men have time for study under ordinary conditions and frequently have opportunities for fitting themselves for positions in civil life, if they do not care to continue a military career. Many of our men now occupy comfortable positions for which they would not have been qualified had they not had service in the Marine Corps.

It is hoped that you will encourage this young man to do his best to gain promotion, to save his money and to seek good associates in the service. Frequent letters from home and friends will mean a great deal to him, will stimulate his ambition and may perhaps make the difference between ultimate success and failure in his life.

Service Means Development.

His desire for adventure, to expand the horizons of his life by visiting strange cities and foreign countries, to sail the oceans, to make his way among men, is most natural in the normal youth. His enlistment in the Marine Corps will be a patriotic and loyal act. If he has the right stuff in him he will leave the service at the end of his enlistment better qualified to succeed in the battles of life. We try to safe-guard him and give him every opportunity to become a strong, self-reliant man and failure.

This letter, with its enclosures, will show in some degree how the interests of men of the United States Marine Corps are looked after. And I most cordially hope that this young man will be a credit to himself, to his family and to his country.

In order that you may be communicated with in case of necessity, it is requested that you fill out the enclosed card with your name and the address at which mail will reach you, and mail in the enclosed envelope which requires no postage.

Respectfully,
F. M. Messick,
Capt. U. S. Marine Corps.

CHILDREN TO ENJOY PICNIC TODAY

Annual Salvation Army Picnic To Be Held at Nichols Park Today—Will Leave Hall at 8:30 O'clock.

Today will be a happy one for about one hundred and twenty children when they taste the good things, and enjoy the games and amusements provided by the Salvation Army, on their annual children's picnic.

The children will meet at the Salvation Army Barracks at 8:30 o'clock, and from there will march to the square where a special car will take them to Nichols Park. There they will be given opportunity to enjoy games and contests of all kinds. A lunch consisting of sandwiches, cake, fruit and ice cream will be served at noon. This has been secured through the efforts of Lieutenants Smith and Estill. Later in the afternoon the children will be given cones and cracker jack. Prizes will be awarded in the contests held in the afternoon, and until 4:30 o'clock in the afternoon the children will have full sway in Nichols Park. They will then return to the square on a special car.

Local people have helped defray the expenses of this picnic both by contributing money and food. If there are any who would still like to help make the youngsters happy, donations will be gladly received.

WHITE HALL RESIDENT DIES IN OKLAHOMA

Mrs. George Baldwin was Member of Well Known Greene County Family—Funeral Will Be in White Hall Thursday.

According to word received by relatives in White Hall, Mrs. George Baldwin, a resident of that place, passed away at the home of her children, in Paris Oklahoma. Mrs. Baldwin was fifty-five years of age, and three months ago went to Oklahoma to visit with her three children residing there.

Before her marriage, Mrs. Baldwin's name was Theresa Kendall. She was a member of one of the oldest families in White Hall, and resided at Eldred, Ill., for twenty-five years. Her husband died about three years ago. A paralytic stroke which occurred seventeen years ago, is believed to be one of the causes of her death.

The remains will be brought to White Hall for burial, and funeral services will be held from the Kendall family home in White Hall on Thursday afternoon.

Surviving the deceased are the following children: Ward Baldwin of White Hall, Frank Baldwin of Decatur, Peter Baldwin of Eldred, Mrs. Guy Winn of Hardener, Kansas; Mrs. Robert Shields, Mrs. Daniel Kistling and James Baldwin of Paris, Oklahoma.

It is hoped that you will encourage this young man to do his best to gain promotion, to save his money and to seek good associates in the service. Frequent letters from home and friends will mean a great deal to him, will stimulate his ambition and may perhaps make the difference between ultimate success and failure in his life.

BIG CITY SPRINGING UP NEAR ROCKFORD

Great Organization is Pushing Work on Illinois Army Cantonment. Complete Thirty Buildings a Day.

Rockford, Ill. July 17.—Fifty miles of trench work was begun Monday, July 9, at the Illinois division cantonment site under the direction of A. W. Alford, hydraulic and sanitary engineer of Chicago, a government sanitation squad and Company A, First Illinois engineers. The work resembling the French front in its mole-like advance, will care for water and sewer mains that go to make up the army camp sanitation system.

Hourly, under the hands of industrious thousands, a city half the size of Rockford, is pushing forward to cover the beautiful farm lands, that 12 days ago made up 19 peaceful country estates. Long, low frame buildings are rising from the ground. Three regimental units, sufficient to house as many thousand men, have been completed since barrack construction began, July 1, and as many more are taking shape behind the army of workmen 2,000 strong who are shaping Uncle Sam's training city on the double quick. An additional 3,000 workmen will join the force as housing facilities are made for them in order to insure the building of 1,500 camp structures before September 1.

Thirty Buildings a Day.

E. P. Lenahan, in charge of construction of the contracting company estimated that a schedule of 30 completed buildings a day will have to be maintained when camp forces and work swing to maximum before September 1.

proportions. At present the camp is a closely guarded bee hive, webbed by eight miles of railroad yards. Five camp locomotives shunt their long trains of material cars to the various unloading stations from 7 a.m. until late at night, automobiles and horsemen scurry thru the maize of camp streets that have already been laid out and great piles of matched lumber grow along the sidings only to melt under the attack of workmen.

Construction is divided into the unit system. One company of men advance over the site to dig post holes for building foundations at points designated by engineers; a second follows close on their heels to set the posts; a third erects the framework; a fourth boards it up; a fifth stretches weather proof material and finishes the interior flooring and walls; a sixth roofs the building and a rear guard, equipped with paint buckets, finishes the job. At present work on a mile long line of bunk houses and mess halls for workmen is the feature. Stables are going up, water tanks are climbing to give fire protection and a network of telephone and telegraph wires are connecting the completed buildings. A branch post office under the control of Postmaster W. H. Hefferan, of Rockford, has been established in camp, and a permanent branch employing 15 clerks, will be installed before troops arrive.

The Advantage of Organized Work.

The organization that makes the gigantic task possible is briefly this:

All construction is under the direct charge of Contracting Quartermaster Major Dwight H. Sawyer.

His military organization is made up of a government field auditor and force of 50 men who check up on each inch of material and each minute of labor that goes into the work; 200 men in Company A, First Illinois engineers, in command of Capt. C. C. Saner, who make plans, survey, locate water mains and meet other engineering problems; a unit of 31 heavy army motor trucks manned by seasoned drivers direct from the Mexican border, and under command of Capt. G. W. Schleifer, and one United States sanitation squad. Under this organization comes the rank and file of workmen who are directed by Mr. Lenahan and his foremen.

Following a Chamber of Commerce campaign, four miles of new cement road is crawling toward the camp to make up two excellent transportation arteries and a new bridge has been ordered to span Rock river for camp use. Comfort stations and a recreation auditorium to seat 5,000 people, are being constructed by the city and all preparations made to handle the \$5,000 monthly business increase that authorities estimate will pour into Rockford with camp establishment. Chief of Police O. E. Bargen has completed his people are being constructed by the establishment of a ten mile moral zone about the camp, and has given 30 additional men and police women to help keep the city clean for Illinois boys in training. The entire city has entered into the moral and development drive and is enjoying the first fruits of a military boom unequalled in its history.

Lemon Juice For Freckles

Girls! Make beauty lotion at home for a few cents. Try it!

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quarter pint of the best freckle and tan lotion, and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and blemishes disappear and how clear, soft and white the skin becomes. Yes! It is harmless.—Ady.

SUIT FOR PARTITION FILED IN MASON ESTATE

INVOLVES LAND HOLDINGS IN
MORGAN AND SCOTT COUNTIES

Court Will Divide Estate of William
H. Mason at November Term—
Value of Holdings Estimated at
Nearly \$250,000

A suit for partition that promises to arouse great interest, not only in this county but in Scott County as well, was filed in the office of circuit clerk Charles W. Boston Tuesday afternoon.

The case in question is that of Albert Dean vs. Charles Dean et al. and involves the estate of the late William H. Mason who died a few months ago. Mr. Mason died without making a will and left no children. Letters of administration were ordered to issue to his widow, Mrs. Marie C. Mason.

For a number of years before his death Mr. Mason resided at 677 South Main street in the property known as the Ewing place. However, most of his life was spent in Scott county in the vicinity of Mansfield. The greater part of his estate is located in Scott county.

During his lifetime Mr. Mason acquired large land holdings and for a number of years was regarded as one of the wealthiest men in the county. The no appraisal has been made of the estate. It is variously estimated from \$150,000 to \$250,000 and more likely the latter figure is nearer the actual value. The estate comprises several hundred acres of choice farming lands and a number of residence

properties, including the residence at 677 South Main street this city which is occupied by his widow.

Albert and Charles Dean are brothers and are children of a sister of Mr. Mason. Their attorney is James O. Priest. While it is not authentically known whether he will be employed in this case, John M. Butler has been attorney for Mrs. Mason in her duties as administratrix and it is probable he will be retained in the forthcoming partition suit.

In the bill as filed by Mr. Priest for Albert Dean he enumerates and describes all of the parcels of real estate to which partition is asked. Among other things the bill alleges that the widow Marie C. Mason has no interest or title to any portion of said real estate.

The bill sets out that Albert Dean and Charles Dean are nephews and the heirs at law of the deceased William H. Mason and own the real estate in equal parts. The bill asks for a partition according to the respective rights of said parties.

"But," the bill states, "in case it cannot be divided without material injury to the parties interested, that the same be sold and proceeds divided according to their respective rights and interests therein." The case will be heard at the November term of the circuit court.

HERE FROM FLORIDA

Mr. and Mrs. Homer Curtiss, and daughter Mary of Miami, Florida, were in the city yesterday. Mr. Curtiss will be remembered by many Jacksonville people, as he is a graduate of Brown's Business college, and for a period of time was assistant secretary of the Chamber of Commerce. He was also a salesman at the firm of Johnson, Hackett and Guthrie, and also with Mathis, Kamm and Shibe. He is making a visit with home folks in Waverly.

HAND BURNED BY LIVE WIRE.

Gus Francis, a lineman in the employ of the Jacksonville Railway and Light company, residing at 770 South West street, had his right hand slightly burned Tuesday by coming in contact with a live wire. Francis was working on the company lines at the intersection of South East street and Superior avenue. He reached across and took hold of a guy wire while he had hold of a live wire. His injury was attended by the company physician and no serious results are anticipated.

Soldiers of Two Wars Are Buried at Hebron

The committee appointed to prepare a list of the soldiers buried in the Hebron cemetery and to obtain the military history of each read the following report at the Patriotic services last Sunday morning.

Nineteen soldiers are buried in our church yard. Two were in the war of 1812 and 17 in the Civil War of 1861-1865.

James Slatten and Dennis Coker are the two who fought in the war of 1812. We could learn nothing of their military life.

Mr. Slatten died Aug. 23, 1873, and Mr. Coker Aug. 15, 1876.

The soldiers of the Civil War so far as we know were volunteers in the following regiments:

The 10th, 14th, 101st, and 115th Illinois infantry, the 2nd Light Artillery or Rogers Battery and the 1st Mo. Cavalry.

Jack Whiteman, Noah T. Brown and Samuel Mulligan were members of the 10th. Henry Willett of the 14th, Elisha T. Fox, W. L. Boring, Shadrach Pitcher, Henry K. Poisal, Peter A. Sinclair, Henry Wilson and John Hickman of the 101st; James R. Brown and Robert Sinclair of the 115th; Addison T. Trotter of the 2nd Light Artillery and George Wilson and George Sinclair of the 1st Mo. Cavalry.

History of the 14th

The 14th regiment was mustered in at Jacksonville May 25, 1861, with John M. Palmer as Colonel. It was sent to Missouri where it remained until Feb. 1862, when it was ordered to Ft. Donelson where it arrived the day after its surrender.

It then marched to Ft. Henry and from there to Pittsburgh Landing and took part in the battle of Shiloh, April 6 and 7, 1862. Its conduct in the battle called for much praise from the commanding officers. After the fall of Vicksburg it remained in Tennessee and Mississippi until its term of enlistment expired. The men then re-enlisted as veterans and joined Sherman's march to the sea. Many of them were killed in Hood's demonstration on Sherman's rear and many others were taken prisoners and sent to Andersonville prison. Those remaining acted as mounted scouts for Sherman's army while going from Atlanta to Savannah.

At the close of the campaign in the Carolinas it proceeded to Washington where it marched in the Grand Review of Sherman's army, May 24, 1865.

FAVORITES STEP TO FRONT AT CLEVELAND

Only Two Races are Finished—Rain Forces Postponement of Other Three Events.

Cleveland, O., July 17.—FAVORITES stepped to the front today at the Grand Circuit meet at North Randall, in the only two races which were finished. Rain forced the postponement of the other three events on the card. Mawza with Edman up won the first division of the 2:19 trot in straight heats and easily outclassing the field.

Peter Schuyler and Oscar Watts put up a pretty battle for place and show the Schuyler horse finally getting second money. It was different in the second division of the 2:19 trot, however, as Peter Chenuant with Murphy up was given hot competition by Hollyrod King in the second heat and by North Spur in the third. In fact in the second heat the horses finished almost nose and nose. Only a great drive down the home stretch by Murphy in the third heat gave the bay son of Peter the Great the heat and race.

Summaries

Washington J. L. Martin's record could not be found.

E. T. Fox, Henry K. Poisal and Peter A. Sinclair were in companies which were taken prisoner at Holly Springs, Dec. 20, 1862. Van Dorn paroled them, sent them to Memphis and thence to Benton Barracks, Mo., where they remained until exchanged in June, 1863.

The campaigns and battles in which each soldier was personally engaged can not be told with much accuracy now. We can only take the history of the various regiments and consider this the probable history of its members.

The 10th regiment Illinois Infantry was organized and mustered into the U. S. service April 29, 1861 for three months service. At the expiration of its term it re-enlisted for three years and on Jan. 1, 1864, it re-enlisted as veterans. Participated in various campaigns in the "Center" and then went with Sherman to Atlanta and the sea. After fall of Savannah mustered out at Chicago, Ill., July 4, 1865.

History of the 14th

The 14th regiment was mustered in at Jacksonville May 25, 1861, with John M. Palmer as Colonel. It was sent to Missouri where it remained until Feb. 1862, when it was ordered to Ft. Donelson where it arrived the day after its surrender.

101st Regiment

Mustered in Sept. 2nd, 1862. Moved to Cairo, Columbus, Ky., and Holly Springs.

Dec. 20, 1862, Co.'s B, C, F and I and the sick of Co. A were captured and paroled; sent to Memphis and then to Benton Barracks.

Companies not captured assisted in Vicksburg campaign, being assigned to gunboats two of which ran the blockade.

After the surrender of Vicksburg they remained in Kentucky and Tennessee until Atlanta campaign.

June 7, 1863, captured companies were exchanged and united with the others about Sept. 25, 1863.

Entered Atlanta campaign and claimed to be the first to enter Atlanta. Arrived at Savannah Dec. 22, 1864. Campaign of Carolinas, Averyboro, Bentonville, Goldsboro, April, 13, 1865, Richmond, Washington, Review May 24. Mustered out of U. S. service June 7, 1865. Disbanded at Springfield, June 7, 1865.

The 115th regiment, Ill. Infantry was mustered into the U. S. service at Camp Butler on the 13th of September, 1862. It took part in the siege of Chattanooga, the battle of Chickamauga which it lost about one half of its number and the Atlanta campaign.

It was mustered out June 11, 1865. During its service it was attached to what was known as the Iron Brigade of Chickamauga.

Information that will correct or complete any of the above records will be gladly received by either of the committee.

JUNE AND JULY BIRTHDAY SOCIAL OF W. R. C.

The June and July birthday social for the members of the Woman's Relief Corps was held Tuesday afternoon at the hospitable home of Mr. and Mrs. J. C. Weber, 320 West Court street. The weather being ideal the attendance was very great affording to the hostesses as well as to those guests who were fortunate to be present. The rooms were tastily decorated with national flags and bunting, while the tables were loaded with vases of bouquets consisting of daisies, feverfew, Yucca Filamentosa Mexicana, Calandria, poppies, sweet peas and corn illies.

Miss Esther Spoons was present as a guest and received in a very pleasing manner "The Little Boy at the Circus" and in response to a generous recall gave "The Country Dance." There was much amusement occasioned in the guessing of charades and conundrums.

The refreshments consisting of ice cream and cakes of various kinds were most heartily enjoyed, and an appreciable amount was added to the treasury of
